STEEL MOUNTAIN FRAME PRICING:

Mountain frames start at **\$2000**. A \$500 deposit is required to start your new project with Heeler Cycles and hold your place in the customer list.

After we discuss the design and all the details (frame and components, paint or powder finish) the final price of frame/complete bike will be sent to you along with the final design drawing for approval. Once you approve and sign off, fabrication will begin when your spot is reached in the customer list.

CURRENT BIKE:

KEY DIMENSIONS:

A: COCKPIT: Tip of saddle to center of handlebar. _____

B: SADDLE LENGTH: Length of saddle tip to tail. _____

C: SADDLE HEIGHT: Center of bottom bracket to top of saddle center. _____

D: STANDOVER HEIGHT: Floor to the top of the top tube, at the center. _____

E: STEM LENGTH: _____

RIDER MEASUREMENTS:

A: HEIGHT: _____

B: TOTAL BODY LENGTH: _____

Standing up straight, measure from floor to base of neck.

C: INSEAM: _____

With feet shoulder width apart, hold a book between legs as far up as it goes. Stand in front of a wall, make a mark using the top of book as guide, and take a measurement from the floor.

D: ARM LENGTH: _____

While making a "gun" with your thumb and forefinger, measure from your shoulder to the crotch of your thumb and forefinger.

E: SHOULDER WIDTH: _____

F: UPPER LEG LENGTH: _____

G: HEELER HEIGHT: Great info to know, but not necessary to your new bike fit :)
